

The California Climate Change Symposium will be held on **January 25-26, 2017**. The event is the premier forum for cutting-edge research addressing the impacts of climate change on the state.

This research informs the state’s strategies and policies to reduce greenhouse gas emissions and to develop programs to safeguard California from a changing climate. The California Climate Change Symposium is convened by the California Natural Resources Agency, the California Environmental Protection Agency, and the Governor’s Office of Planning and Research.

To become a sponsor of the Symposium, see below for tiers, pricing and shared benefits.

| Combined Benefits   | Superstar | Champion | Catalyst | Advocate | Supporter      | Proponent |
