

2019 Climate Change Research Symposium

California Strategic Growth Council's Climate Change Research Symposium will highlight engagement in research, showcasing best practices and presenting paths forward to advance actionable science through meaningful engagement of stakeholders and communities in the research process. Participants can expect to engage actively throughout the day via a mix of panel discussions, plenary speakers, networking, and workshopping. The goal for the day is to build knowledge in California's research community on engagement best practices, as well as to demonstrate the role and importance of research in helping citizens, legislators, and communities.

November 5
8:30 am - 6 pm

Sheraton Grand
Sacramento, CA
